

# GARAGES

## FROM OLD... **TO NEW**

Whether you're needing a garage to replace the old one, starting from the ground up and building new, or needing an addition, we provide everything to make your vision come true. Our expert staff provide guidance every step of the way. We begin with an on-time, on-site assessment and we go from there. We back our **COMPLETE GARAGE SPECIALISTS** attitude with reliability, meticulous detail and expertise to get the job done.

**GARAGE MASTERS**

## BUILDING GARAGES OF EVERY TYPE

From a simple one-car garage to a complex loft addition, every Garage Masters build includes an element of personalization. It may be as simple as extending the wall height a few inches, or it might be turning a third stall into a workshop or garage gym – the possibilities are endless.

Design options include radiant in-floor heat, premium interior finishes and custom storage solutions to keep things tidy. One thing that's standard in every garage we build is the same high quality service from our entire staff.
