FUSION PRO SERIES

Get the best of both worlds with our new FUSION cabinet series. We took a heavy duty tool chest and added it to the mix for the perfect combination of storage space. These cabinets are jam-packed with quality features such as solid core aluminum handles, stainless steel ball bearing drawer slides, corrosion-resistant powder coat finish, dual wall doors, and a stainless steal work surface.

WORK SURFACE
Choose from a traditional stationary workbench or the mobile work station. The 1.5inches stainless steel work surface has a multi-layer core for increased strength. Our work surface fits with the tool chest or work bench.
RUGGED CONSTRUCTION
These sturdy cabinets are manufactured from a combination of solid 18 and 22 gauge steel, then finished in a durable blue satin powder-coat. Feel the quality difference with the substantial dual wall doors – with soft close, zero clearance hinges to prevent slamming doors.

TAKE YOUR GARAGE BACK

Garage Masters storage cabinets are built using heavy-duty 18-22 gauge steel, these sleek yet functional storage solutions are available in a wide variety of colours and finishes.

We also offer a wide range of products to organize your garage and make life a little easier. Including slatwall, hooks, baskets, shelves, bins, lifts and hoists.
